INDIANA UTILITY
REGULATORY COMMISSION

You are hereby notified that on this date the Indiana Utility Regulatory Commission ("Commission") makes the following Entry in this Cause:

On November 3, 2003, the Indiana Utility Regulatory Commission ("Commission") issued an Entry requesting certain information from the parties to this Cause, as well as from all facilities-based competitive local exchange and interexchange carriers operating in the State of Indiana. The Commission's data request sought information about mass market switching, and high capacity loops and transport facilities. The November 3rd Entry directed that responses should be filed with the Commission and all parties on or before November 24, 2003. Consistent with the Entry, the Commission has electronically received a number of responses to its data request.

The purpose of this Entry is to ensure that all parties and the Commission have received information responding to the data request from the same respondents. Attached to this Entry is a list of those telephone companies that have responded to the Commission, along with a contact e-mail address. If a party has not received responses from any entity on the attached list, the party should contact that entity. If a party discovers any other discrepancy regarding the respondents to the data request, the Commission and all other parties should be notified of the discrepancy.

IT IS SO ORDERED.
